Sample Modules:

Our **Young Professionals** course offers students the opportunity to explore a number of different topics that you would both find on a traditional MBA style programme but that are equally indispensable for our future leaders.

As this is a short term programme the modules are tasters introduced across a 15 hour curriculum per week. We recommend that students take full two week programme to fully benefit from the course.

Innovation and creativity in organisations

Provides students with a critical understanding of the challenges of managing creativity and innovation within contemporary organisations and the ever-changing global competition.

Leadership Plus

Critical to every business, students focus on talent management and decision-making, and leading and developing individuals and high performance teams within an organisational culture.

Accounting & financial management

An introduction to financial statements and a basic understanding of business accounting. Students look at the economics behind businesses and how basic business budgets work

Strategic Thinking

This module outlines what strategic thinking is, how strategies are developed and evolve, what various business models look like and how innovative and successful strategic business plans are put together

Entrepreneurship and New Venture Creation

Allows students to explore the variety of factors which influence decision making in business, with focus on: business start-up, creativity and innovation, risk management, and conflict resolution

Project Management

Students learn to plan a project, identifying and measuring the requirements and the relationship between time and cost, risk management of same, and putting a project plan into action

Marketing & Brand Development

Students learn the basic skills needed for a broad understanding of the marketing environment, the fundamentals of management, and the professional and academic skills needed for business

Weekly Critical Thinking Workshop

Identified by the World Economic Forum as one of the most important skills required by our young generation for future success, our Young Professionals course includes one full afternoon workshop per week aimed to improve the students' critical thinking. Developed by an expert team, these workshops are a fantastic addition to this programme.
